Vaniyambadi, Tamil Nadu, India

Summary

BCA student at VIT Vellore (CGPA 8.92) with a strong interest in software and web development. Skilled in programming, problem-solving, and building academic projects using modern technologies. Currently in the second year, seeking an internship to gain practical experience and grow in a real-world environment.

Education

Vellore Institute of Technology (VIT)

Bachelor of Computer Applications (AI & ML)

– CGPA: 8.92

Vellore, Tamil Nadu

Jul 2024 – Jul 2027

Islamiah Boys Higher Secondary School (IBHSS)

Matriculation & Higher Secondary (Mathematics & Computer Science)

– 12th Grade: 88%

– 10th Grade: 79%

Vaniyambadi, Tamil Nadu

Completed 2023

Technical Skills

Programming: Python, C++, Java

Web Technologies: HTML5, CSS3, JavaScript, PHP, React.js (Learning)

Databases: MySQL, MongoDB

Tools: VS Code, Git, GitHub, Postman

Concepts: Data Structures, OOP, DBMS, REST APIs

Projects

AI-Based Smart Attendance System (Face Recognition + IoT)

GitHub

Python (Flask), OpenCV, ESP32-CAM, Pandas, JavaScript

- Developed a real-time attendance system using face recognition with CNN-based embeddings.
- Integrated ESP32-CAM for live video streaming and edge-based image capture.
- Automated attendance marking with time-based classification (Present/Late).
- Built a web dashboard for real-time monitoring and attendance tracking.
- Generated structured Excel reports using Pandas with duplicate prevention.
- Reduced system latency and improved detection accuracy.

Student Stress Prediction System (Machine Learning Project)

GitHub

Python, Scikit-learn, XGBoost, Pandas, NumPy, Matplotlib

- Built ML models to predict student stress using academic and lifestyle data.
- Implemented Logistic Regression, Random Forest, SVM (PCA), and XGBoost.
- Achieved highest accuracy of 85% using XGBoost.
- Applied preprocessing techniques: encoding, normalization, and scaling.
- Used PCA for dimensionality reduction and improved efficiency.
- Evaluated models using precision, recall, F1-score, and confusion matrix.

Additional Information

Currently Learning: Web Development, Full Stack Development, Machine Learning basics

Technical Strengths: Object-Oriented Programming, Algorithms, Problem Solving

Soft Skills: Communication, Teamwork, Adaptability, Quick Learning

Extracurricular Activities: Video editing and content creation

Languages: English, Tamil, Hindi, Urdu
